ADDENDUM

1. At paragraphs 70-84 of our OPEN judgment on preliminary issues in this case, handed down on 1 November 2022, we explained why, as then advised, we considered it appropriate to anonymise the parties whose cases we had considered. We indicated at paragraph 85 that, as we had not heard detailed argument, we would consider any representations that might be made by representatives of the media. No such representations were received. We have therefore decided that the parties should remain anonymous.
